

From the Chairman

[1]

Welcome to Teyseer Group, where innovation guides ideas and dreams get wings to fly.

With a small and humble beginning in 1968, Teyseer has come a long way through a huge transformation, overcoming a multitude of challenges. Thanks to the tireless efforts of our executive management team and thousands of our dedicated employees, today we can take pride in the strength of our service capabilities, organizational values, vision and innovative thinking that we are in a position to take definitive steps towards participating in Qatar's sustainable and ambitious growth strategies.

Thanks to the visionary and inspiring leadership of Father Emir HH Sheikh Hamad Bin Khalifa Al Thani and The Emir of Qatar HH Sheikh Tamim Bin Hamad Al-Thani, Qatar is experiencing the most exciting phase in its history. In 2010, when Qatar was chosen by the international community as the host nation for FIFA 2022 world cup tournament, it was a resounding vote of confidence for our country, our leadership and our people. The winning bid was an endorsement by the global community that Qatar can deliver exceptional results.

We see the transformation around us as promising opportunities to create new horizons. We are drawing on the potential offered by Qatar as one of the region's leading economy.

Our constant quest for improvement has established Teyseer as a leading business group in Qatar with many of our group companies as market leaders in their respective fields of operations. Over the past more than 40 years, Teyseer has redefined the dynamics of trust, reputation, customer service, honesty and transparency, leading to our growth and success, which inspire our values and business principles. We have always believed in the vision and wisdom which reminds us that "we cannot discover new oceans, if we lack the courage to lose sight of the shore."

The driving force behind our growth and success undoubtedly has been the trust that our customers have placed in us for long years. They stood by us as we went on sharing the vision of Qatar and constantly kept on participating in shaping the country's development initiatives. Our customers have given us the opportunity to partner in our country's amazing transformation into a leading economic force. Our international principals, business partners and vendors have lent us formidable support and ability in making us what we are today "one of the highly reputed and admired business houses in the country."

In these long journey of learning, growth, success and discoveries, I would like to place on record my deep appreciation for all directors, employees, financial institutions, shareholders, customers, international principals and other stakeholders, for their whole-hearted dedication and professional support. Teyseer is committed to differentiating itself in the marketplace through customer focused services and innovative products, technology & solution offerings, so as to build a stronger and sustainable future for our Group as well as our Country.

As Qatar continues to move steadily towards becoming the region's main economic power, we are as determined as before to be a part of our country's promising future. We are always open to business and to new ideas, because we believe, an open mind is one that can take full advantage of opportunities, and it's amazing what you can achieve, when you work together.

Abdul Rahman Essa Al Mannai
Chairman, Teyseer Group
